

## **EPIC4 Specialty Partners Welcomes Beecroft Orthodontics to Its Growing Network of Leading Specialty Practices**

Scottsbluff, NE, July 1, 2025 – EPIC4 Specialty Partners is proud to welcome Beecroft Orthodontics, one of Virginia's most respected orthodontic groups, to its expanding national network of doctor-led specialty practices.

Founded in 2012 by Dr. Matt Beecroft, the practice began with a single office in Spotsylvania, Virginia. Through a series of strategic acquisitions and a relentless commitment to exceptional patient experiences, Beecroft Orthodontics has grown to include eight locations across the state, serving communities in Fredericksburg, Stafford, Arlington, Woodbridge, Ruckersville, Charlottesville, Mechanicsville, and Glen Allen.

"Beecroft Orthodontics exemplifies what EPIC4 was built for, practices that deliver clinical excellence while staying deeply connected to their patients and communities," said Dr. Sami Webb, CEO at EPIC4 Specialty Partners. "We're thrilled to partner with a team that leads with integrity, hospitality, and vision."

Known for their "How can we make you smile?" philosophy, Beecroft Orthodontics has set itself apart through personalized service, forward-thinking treatment options; including braces, Invisalign, in-house aligners, and Botox and a high-performing team led by Dr. Beecroft and David Richardson (CEO).

"From our first conversations, it was clear EPIC4 wasn't just another DSO model," said Dr. Matt Beecroft Orthodontics. "They took the time to know us as people, not just a practice. Joining EPIC4 gives us a seat at the table and a real opportunity to shape something meaningful."

Beecroft Orthodontics joins EPIC4's growing family of premier specialty practices committed to collaborative growth, clinical autonomy, and building lasting legacies.

EPIC4 Specialty Partners is redefining the DSO model for orthodontic and pediatric specialists. Built by doctors for doctors, EPIC4 offers a true partnership, providing strategic, operational, and financial support while preserving each practice's clinical autonomy and culture. With a fast-growing network of high-performing practices nationwide, EPIC4 empowers doctors to grow intentionally, lead confidently, and focus on what matters most: delivering exceptional patient care.
